HOUSE RULES

The management requests that all patrons remain seated during blackouts for scene changes. The performance concludes when the house lights come up at the close of the final curtain call. All entryways must be kept clear, for the entrances and exits of actors to and from the stage. The theater patron disregarding this rule creates a hazardous situation for himself and other theater patrons for which the management bears no reponsibility.

The taking of photographs or the operation of any recording device during a performance in this theater is forbidden.

Smoking is not permitted during the show by orders of the fire marshal.
